Vinson Lived On Milk and Eggs For Months; Takes Tanic, Gains 15 Pounds.

"I have come twenty-six miles to tell you what Tanic has done for me," said Joe M. Vinson, a well known farmer of Love, Miss., while in Memphis recently.

"Three years ago," he continued, "my stomach got all out of order. I couldn't digest a thing and for several months I lived on buttermilk and the white of eggs. I was too nervous to sleep, and my nerves were so bad that I would almost faint and could hardly get my breath. I had terrible headaches and was so nervous that I would even vomit."

"When taking Tanic my health began to get as good as anybody's and I feel like a new man. I eat anything I want, sleep like a rock, and my nerves are all right. I had terrible headaches and was so nervous that I would even vomit."

"I have gained fifteen pounds and can do a hard day's work. I wouldn't be in the same state if I were not taking Tanic for my farm and the stock therein."

Tanic is sold in El Paso by Kelly & Collier and by the leading druggists in practically every city, town and village in America.—Adv.

# BIG SUPPLIES OPEN TUESDAY

Seattle Men, Who Struck Jan. 21, To Return At Pre-Strike Wages.

Seattle, Wash., March 10.—Seattle's big shipyard, idle since January 21, when approximately 25,000 workmen struck for higher pay, will reopen tomorrow, the men having voted to return to work for the same wages received before they went out.

Tacoma and Aberdeen yards, closed by a strike of about 15,000 men, also will resume operations.

**Plan of Taking on Men.**  
Announcement that the yards would reopen was made by seven ship-building corporations. They said the men would be taken on as rapidly as consistent with opening the plants and accomplishing the necessary reorganization due to the long period of idleness.

Last week the strikers voted on the question of returning to work, pending the announcement of findings of a federal wage commission. The vote was 10 to 1 in favor of returning.

**RAILROAD SHOP EMPLOYEES AGAIN ASK WAGE RAISE**  
Washington, D. C., March 10.—Several hundred thousand railroad shop employees have asked the railroad administration to increase their wages about 25 percent. The board of railroad wages could not grant the request, but has agreed to hear their case Wednesday.

The shop employees, who were given a wage increase last year in addition to the general increase in pay, now ask that the basic rate per hour be changed from 35 cents to 45 cents for trained employees with proportionate raises for assistants and helpers.

The application asks that any increase be made retroactive to January 1. Shop employees participating in the demand include machinists, blacksmiths, boilermakers, sheet metal workers, structural ironworkers and carmen.

According to Robert Carver, secretary of Carpenters' union No. 25, the strike was voted last night.

Carpenters' union also asked a minimum wage of \$1 a day. The demand was made at a meeting held in the hands of the state industrial commission.

Local union officials claim that the union has a minimum wage of \$1 a day. This was an increase of 50 cents an hour. The contractors announced that they are determined not to grant the increase.

# High Profits In Industry Target Of A New Board

No Intention To Disturb Wage Level At Present, Asserts Redfield.

Washington, D. C., March 10.—First consideration of the industrial board of the department of commerce, secretary Redfield said today, will be to cut off excessive profits in industry. He denied there was an intention to disturb the wage level at present. The board will begin its conferences next Wednesday, meeting representatives of the steel industry.

"It is hoped there will be no general lowering of wages," said the secretary, who added that representatives of several industries reported there was no necessity for reducing wages, even with decreased selling prices.

**Chief Purpose of Board.**  
The chief purpose of the industrial board, the secretary said, was to secure a fair profit by failing prices while present wages are being maintained, and so that they will not lose if any reduction in wages results eventually.

The work of the board toward stabilization will be to set up a system of control over the industry, and to see that there is no longer any excessive speculation that there can be effective competition in the electric transmission of intelligence.

**Argues for Higher Rates.**  
Mr. Hall, president, presented in the form of a diagram, an argument for an increase in telephone rates. The diagram shows the rise in commodity prices, and the rise in telephone rates have remained almost stationary.

Relative to the price of commodities in general, the rate has decreased 20 percent, it is pointed out. "About 10 percent increase in rates is needed to bring them back to the level of the commodities," he said.

**REVERSES MADDOO POLICY TO 'IGNORE' STATE COMMISSIONS**  
Phoenix, Ariz., March 10.—This is a very pleasing reversal of the Maddoo policy of ignoring state commissions. The new organization, headed by Walker D. Hines, United States director general of railroads, Mr. Jones exhibited a lengthy letter and order from the federal government outlining a plan, by which the railroad administration and the state railroads would be brought together in the public interest.

The communication from Washington asks the cooperation of the Arizona commission in investigating the character of freight and passenger service, and the condition of track and equipment of lines in this state. A report is asked on the general efficiency of the railroad service, together with recommendations for improvement.

**WILLIAMS RESIGNS POST IN R. R. ADMINISTRATION**  
Washington, D. C., March 10.—John Williams has resigned as director of the railroad administration's division of finance and purchases. He will remain as chairman of advisory committee to director general Hines and will continue his duties as controller of the currency.

The division headed by Mr. Williams will be divided into two parts. Henry R. Scherer, now chairman of the central advisory purchasing committee, directing temporarily the new division of finance and purchases.

Williams was chairman of the finance committee, and chairman of an advisory committee on purchases. He will continue his duties as controller of the currency.

**ELIMINATE COMPETITION OF SOME PASSENGER RATES**  
Washington, D. C., March 10.—At the direction of the railroad administration, railroads are revising the passenger tariffs to eliminate, in some cases, the competition of rates over widely circuitous routes with the rates of a direct route. These changes will make little practical difference on lines generally used to travel, it is stated today at the railroad administration.

In no case will rates on the longer routes be increased above the rates of a direct route. If the deviation is greater the old rate will be allowed to stand, if there is considerable travel over the longer line or there is any adequate reason for distributing traffic between the two lines.

**PULLMAN TAX CUT IS NOT EFFECTIVE UNTIL APRIL 1**  
Garrett King, general passenger agent of the P. & W. railway, said today that the tax cut on Pullman rates will not be effective until April 1. Until that date the rate remains 10 percent of the amount of the ticket. We have had many inquiries about the rate, but some complaints because the 5 percent charge could not be obtained.

**REIFF FROM LONG AND SHORT HAUL CLAUSE GIVEN**  
Washington, D. C., March 10.—Relief from the long and short haul clause was granted interstate commerce shipper in Washington territory today by the interstate commerce commission, through a ruling, which provides that the lowest rate apply, but that any route shall be applied to all other routes.

# EL PASO HERALD GIVES EVIDENCE OF OWNERSHIP WITH RATIONAL CONTROL, DECLARED.

No Reason To Fear U. S. Ownership With Rational Control, Declared.

New York, March 10.—The net earnings of the American Telephone and Telegraph company for the year 1918 were \$24,725,014, according to the annual report issued today. Detention of interest charges left a balance of \$11,121 available for dividends, which was an increase of \$5,430,215 over the previous year. The surplus for 1918 was \$2,671,425.

Reporting to stockholders on the subject of "combination and regulation," the report says:

"It will be extremely unfortunate if, with a very pronounced public sentiment in favor of it, a mere system with a few universal, comprehensive service and complete utilization of all the facilities cannot be evolved from the existing conditions."

**Rational Control No Menace.**  
There is no reason, according to the report, to fear that the government ownership, with a rational control, will be a menace to the service and complete utilization of all the facilities cannot be evolved from the existing conditions.

There is little doubt remaining in the minds of the public but that regulated monopoly is better than unrestricted competition. The latter is a menace to the public interest, and there is no longer any excessive speculation that there can be effective competition in the electric transmission of intelligence.

# AMERICAN AND MEXICAN MILITARY COMMANDERS DINE IN JUAREZ.

An exchange of courtesies between Gen. J. J. Hornbrook, commanding officer of the El Paso military district, and Gen. Jesus Aguirre, commander of the northern military zone of Mexico, who has announced his departure for the south within the next few days, took place Sunday, beginning with a dinner extended by Gen. Castro and staff to Gen. Hornbrook and staff in Juarez.

**Dinner in Car.**  
Two tables were set for the dinner in Gen. Castro's private car, one presided over by Gen. Castro, who had as his guests Gen. J. J. Hornbrook, Col. S. H. Thompson, American consul E. A. After the speaking, a toast was drunk to the United States Army and the United States of America, and well wishes for the success of Gen. Castro's army operations against bandits were expressed by the American officers.

**Mexicans Appreciative.**  
The Mexican officers expressed their appreciation of the cooperation that the Americans had given them in suppressing the smuggling of arms and ammunition across the border to bandits. They said that up until recently most of the Mexican people were rather bitter against the United States, because they felt that we were not in sympathy with their domestic troubles. They said they had taken particular pains to inform the Mexicans that the condition of affairs had completely changed within the last three or four months.

**Castro After Villa.**  
Maj. Menden stated that entirely too much importance was being attached to Villa's operations by newspapers in the United States, and that Gen. Castro had the situation well in hand and in due course of time would be able to get rid of Villa and any other bandit in his district.

Col. Mora exhibited at the dinner a gold ring that had been presented to him by the chamber of commerce of El Paso, of which he was very proud. He said it had been given in recognition of his work in cooperating with the business men of El Paso.

A number of photographs were taken of the two dinner tables, and a moving picture machine made films of the guests chatting on the outside of the car.
